Customer Complaint Log

A single register for every complaint received, with an investigation record and a period summary. Keep one log per period and review open cases at least once a week.

Complaint register

Record each complaint on the day it is received, in the customer's own words where possible. Use one row per complaint. Do not close a row until the customer has been told the outcome.

Period summary

Complete this block at the end of the log period. Count from the register above, not from memory.

Close-out

A complaint is closed only when the agreed resolution has been delivered, the customer has been informed, and any follow-up promise has a named owner and a date. Complaints that remain open at the end of the period are carried forward to the next log with the same reference.
