How to use this document: delete this paragraph before saving, sharing, or circulating it. Every part shown in blue is yours to replace: type your own details over each blue [field] until no blue remains. Add or remove table rows to fit your needs. Then select all (Ctrl+A) and set the font colour to the same dark colour throughout. What is left is your finished document.

Software Licence Tracker

One register for every licence, when it renews, who owns it, and what needs a decision.

1. Tracker details

Tracker period covered	[Tracker period covered by this tracker]
Person responsible for this tracker	[Full name of the person responsible for this tracker]
Date this tracker was last reviewed	[Date this tracker was last reviewed]

Do not record licence keys or activation codes in this tracker. Record where each key is securely stored instead, and keep the keys themselves in the approved secure store.

2. Licence register

One row per licence or subscription. Add or remove rows as needed.

Software name	Supplier or vendor	Licence type	Licences purchased	Licences in use	Start date	Expiry or renewal date	Renewal notice period	Owner	Status

[Company name]

3. Renewal log

Record every renewal decision and action: renewed, renegotiated, reduced, or cancelled. Add or remove rows as needed.

Date of the renewal action	Software name	Renewal decision taken	Action taken	Next renewal or review date

4. Renewal review checklist

	Every licence expiring within its notice period has a named owner and a renewal decision recorded in section 3.
	For each renewal, the number of licences in use has been compared with the number purchased, and unused licences have been considered for removal.
	The business justification for each licence has been confirmed by its owner, and any licence nobody will justify is flagged for cancellation.
	Auto-renewal settings have been checked for every licence, and any unwanted auto-renewal has been switched off before its notice deadline.

☐	The location of each signed agreement and the secure store holding its licence key are recorded, or the gap is noted for follow-up.
